The Company reported net income of \$2.1 million, or \$0.04 per share, for the three month period ended June 30, 2017, compared to net income of \$1.0 million, or \$0.03 per share, for the three month period ended June 30, 2016. Total revenue increased by \$6.1 million, or 37%, to \$22.3 million for the three month period ended June 30, 2017, compared to \$16.2 million for the three month period ended June 30, 2016. This increase is primarily attributable to revenue from the residential mortgage division which was acquired in July 2016. Revenue also increased due to higher interest income as a result of the strong growth in interest-earning assets over the last twelve months driven by the Company's "Power of Red is Back" expansion program.

Non-interest income increased to \$5.0 million for the three month period ended June 30, 2017 compared to \$3.0 million for the three month period ended June 30, 2016. This increase was due to \$3.0 million in mortgage banking income, driven primarily by loan sales.

Non-interest expenses increased by \$4.7 million, or 36%, to \$17.7 million during the three month period ended June 30, 2017 compared to \$13.0 million during the three months ended June 30, 2016. This increase was mainly caused by the addition of expenses related to the residential mortgage division. Salaries and employee benefits were also higher at the Bank as a result of annual merit increases along with increased staffing levels related to our growth strategy of adding and relocating stores. Occupancy and equipment expenses associated with the growth and relocation strategy also contributed to the increase in non-interest expenses.
